The Room Inside

Timber Cladding Finish

The timber cladding finish is becoming more and more popular with customers and fitters alike. Timber is warmth itself and marries perfectly with roof windows.

Plaster Finish

The most popular 'traditional finish' to the sunroom.

Complete with downlighters, the plaster finish is an excellent base when the customer is considering colours for painting.

Roof Lights / Windows

Roof lights/windows are supplied on an optional basis to complete the authentic finish to the sunroom.

This option provides a great source of light and adds character to the Sunroom.

As Sunrooms are a perfect type of room to relax in all year round, it will bring you both warmth and comfort to you and your home from a well insulated, well finished but more importantly, an efficient oasis of calm.
